Routine Food Inspection

Milwaukee Wholesale Distributors, LLC
Milwaukee Wholesale Distributors, LLC
8365 N 76th St
Milwaukee, WI 53223

February 26, 2008

The following list of violations of the Wisconsin Administrative Code as adopted by reference in the Milwaukee Code of Ordinances Chapter 68, and/or other City ordinance(s) must be corrected as soon as possible but not later than the date specified. A re-inspection fee may be assessed if the violation is not corrected by that date. An inspection fee may be charged for any repeat violations.

Fee Amount: \$0.00

Code Number	Description of Violation	Correct By
8-301.11	The restroom designated for the occupant is being blocked by wood pallets. There is no access to the women and the men's restrooms. Provide access to restrooms at all times and ensure that each is stocked with soap and paper towels.	03/11/2008

Inspection Notes

Install door sweeps on the sliding door in the back to ensure that there is a tight seal with the door and the floor. This will prevent an accessible entry way for pests. Also ensure that the overhead doors can close tightly and seal off any accessible entry points for pests.

Occupant no longer has access to his designated restrooms. He is using the restrooms for the Mega Liquidation Store. These restrooms do not have towels available for hand drying. Ensure that these restrooms are supplied with single use hand towels (paper towels) for hand drying at all times. Also ensure that there is a supply of soap available and that there is hot water available at all hand sinks. During the inspection, the middle sink in the men's restroom did not supply hot water. The far left handsink in the women's restroom is clogged and there is a leak at the waste drain. Properly restore hot water and properly repair all handsinks so that they function as designed.
