## Routine Food Inspection

Reinspection #1

FOOD SERVICES, INC.  
HELWIG CARBON CAFETERIA  
8900 W TOWER AV  
MILWAUKEE, WI 53224

July 24, 2007

The following list of violations of the Wisconsin Administrative Code as adopted by reference in the Milwaukee Code of Ordinances Chapter 68, and/or other City ordinance(s) must be corrected as soon as possible but not later than the date specified. A re-inspection fee may be assessed if the violation is not corrected by that date. An inspection fee may be charged for any repeat violations.

**Fee Amount: \$78.00**

Code Number	Description of Violation	Correct By
12-201.11(C)	Post the State certificate for your certified food manager	07/31/2007
6-301.12	No single use hand towels is available for hand drying at the sink along the back wall on the food line. Provide single use hand towels for handdrying at all handwash locations. Monitor and refill immediately when empty.	07/31/2007
5-202.11	No air gap installed for the ice drain at the ice machine in the front. An air gap is required to prevent contamination to the ice or the ice bin in the case of a backflow. Cut the tubing so it remains above the drain funnel to provide an air gap.  The ice machine in the back also does not have an air gap. Adjust the piping so that they do not enter the funnel. Additionally, clean the ends of the ice drain to remove the moldy buildup.	07/31/2007
3-602.11	No ingredient list available for the muffins and donuts. Provide an ingredient list for the muffins and donuts so consumers can identify any food allergy to ingredients that they may have. Have the ingredient list posted or available upon request.	07/31/2007

### Inspection Notes

Notes: Remove the paper from the ice scoop tray. Advise all employees to wash hands before putting on gloves, wash hands after putting on gloves, and when switching between different tasks (from clean to dirty tasks or from dirty to clean tasks and from tasks that can cause cross contamination).
